

PE scaffold tarp

ECONOMY 110 GR/M²

Woven scaffold wind reduction cloths provide wind protection on construction sites. They reduce wind load by up to 100%, enhancing scaffold stability and safeguarding personnel and materials. Easy to install and compliant with safety standards, they're ideal for construction site protection.

■ Technical data

Tensile strength	857N / 5cm (ISO 13937-1)
Tear strength	187N / 5cm (ISO 13937-1)
Temperature resistance	-40°C / +80°C

■ Product information

- HDPE tape fabric with LDPE coating on both sides
- Welded hem all round with PP rope reinforcement
- Double aluminium eyelets, inner Ø 12mm, every 50cm all round
- Each tarpaulin packed in a transparent PE bag with a neutral COVER insert sheet, 4 languages and EAN code
- Outer packaging in sturdy boxes of 5-ply water-resistant cardboard
- Delivered on Euro pallets (80×120cm)
- Pallet height: half approx. 120cm, full approx. 210cm

■ Customisation

- Custom size, colour and/or weight: minimum order and delivery time by arrangement
- Private label / own brand packed in box or bale
- Also available in flame-retardant (NVO) quality
- This product can be printed
- Optional: CORONA surface treatment gives printed texts more durable adhesion
